

Dear Patients,

Over the years the Dentist's administrative workload has become very laborious and takes time away from what we like to do the most. I believe that patient care should be of the utmost priority. Therefore, we have recently collaborated with a company that will take over much of the day to day management responsibilities so that I will be able to provide more attentive patient care. I have cared for you and your families for over 30 years, and there is nothing more important to me than continuing to serve as your health care provider and advocate.

It is also with much excitement, we are expanding the services we offer our patients such as; orthodontic Invisalign, periodontal and implant surgery treatments, "teeth in a day", CAD/CAM crowns in 2 hrs, whitening and root canal treatment.

While I will continue to provide you with excellent dental care, we have added 3 fantastic clinicians to join me in creating a "Group Practice" in order to provide you with all your dental needs in one location.

I feel fortunate to have found Dr. Kevin Guze DMD, DMSc, MSc who is a board certified Periodontist and dental implant specialist. Dr. Guze graduated from Harvard School of Dental Medicine in periodontics with a distinguished career in teaching and research. Dr. Alaa Ahmed DMD, MSc, also a very accomplished board certified Periodontist, offers a full range of surgical services. Where I have previously had to refer my patients to outside specialists for oral surgery, dental implants and periodontal treatment, they will now be providing these services in office. In addition, we will now be offering oral sedation, IV sedation and general anesthesia services available to our patients.

I am extremely confident that Drs. Guze, Ahmed, and Anderson will provide you with excellent dental care. We have recently undergone office renovations and have installed advanced equipment, including a CT scan and a dental laser.

Our vision is to create the way we believe Dentistry should be practiced, focused primarily on patient care. This new group model enables me to be with you whenever and wherever you need me as your dental care provider. To fully describe our new endeavor, we have also decided to change the name of my practice to "**Milford Family Dental**". I hope you enjoy the new and exciting changes here. I am humbled by the trust you have placed in me and I am very excited about moving into the new era of advanced Dentistry. If you have any questions, please call or email me at any time.

Sincerely,

Barry Armet, DMD
